

Let your voice be heard!

Join Community Care for an Adult Member Advisory Meeting!

Community Care is a nonprofit managed care organization. We oversee behavioral health care services and programs that our members receive. Community Care works with providers to help them to deliver innovative and accessible, behavioral health services. Our belief is that behavioral health recovery is possible and that all individuals should have a voice in their treatment.

Our number one goal is to improve the quality of services for our members and families in the communities through a partnership focused on suggested recovery outcomes. We need your feedback to achieve that goal!
